PORTFOLIO   ([Jessie Angelica - Open to work as data analyst](#))

- **Artificial Intelligence : Speech Recognition using Python**
  DITA: Simple Voice Assistant Google API that has 11 features
- **Coding and Big Data using Python and Power BI**
  Visualizing, Summarizing, and Comparing the Data of FIFA 2023, Province, Tourism Site, Covid-19
- **Database System using SQL**
  Creating the Database of hotel management system and library management system.
- **Software Application using JAVA**
  Creating application of Library Management System
- **Statistic using SPSS**
  Analyzing the data, collecting the data, Bayes Theorem, counting rules, organizing and visualizing categorical and numerical data, central tendency, sampling distribution and hypothesis testing.
- **Web-Based Application using PHP and SQL**
  Creating Restaurant Web-based Application for Server-Side Programming Course using Html, CSS, JS, SQL, PHP.
- **Internet of Things using C++**
  Creating plant watering system using humidity sensor and LED and Alarm using 7-segment LED and Piezo Buzzer.

ADDITIONAL

Programming Skills:
- Data : Python, MySQL, Power BI, SPSS, Ms. Excel, IoT
- Web : HTML, CSS, JS, Bootstrap, PHP
- Application : JAVA, UML, Kotlin
- UI/UX : Figma, Blender, Unity
- Network : Linux, Cisco

Soft Skills:
- Analytical and Critical Thinking, Problem Solving
- Communication Skill, Teamwork
- Time management, Responsibility

Languages:
- Native Proficiency Level in Indonesia; Advanced Proficiency Level in English (DET Score: 120)

Certification and Courses
- Data Analysts Toolbox from Udemy
